

# iPoint SCIP Connector

# Speakers

**Dr. Angelika Steinbrecher**

Senior Expert Compliance, Sustainability, and Innovation  
iPoint Group

**Sushma Kittali-Weidner**

Director of Operations  
iPoint Group

# Agenda

1. Latest News with SCIP /industry challenge

2. iPoint and SCIP activities timeline

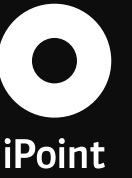

3. A review of features

4. A glimpse into the software

- Focus on collecting SCIP properties from supply chain
- Focus on preparing and submitting dossiers

5. iPoint Solution Options

# About iPoint

# We are iPoint

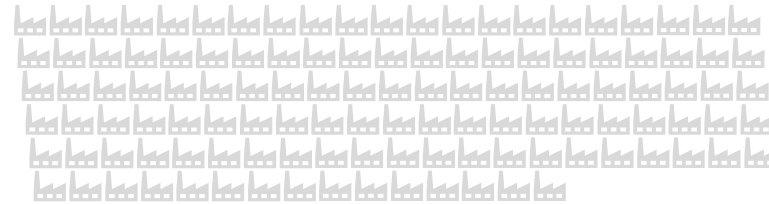

**2001**   
foundation iPoint

Presence in  
**North America, Europe, Asia  
and Australia**

**170** experts  
and growing

**250** global  
enterprises among customers

# We develop software

- Compliance
- Sustainability
- Risk

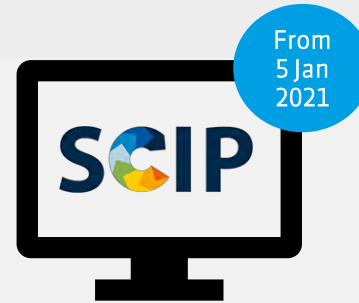

# iPoint SCIP Connector

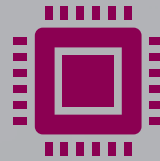

# SCIP database – in a nutshell

## Who reports?

EU based companies  
supplying articles  
to the EU market

## What is reported?

Articles with  
SVHC >0.1%  
  
(and complex objects  
containing these)

## Why?

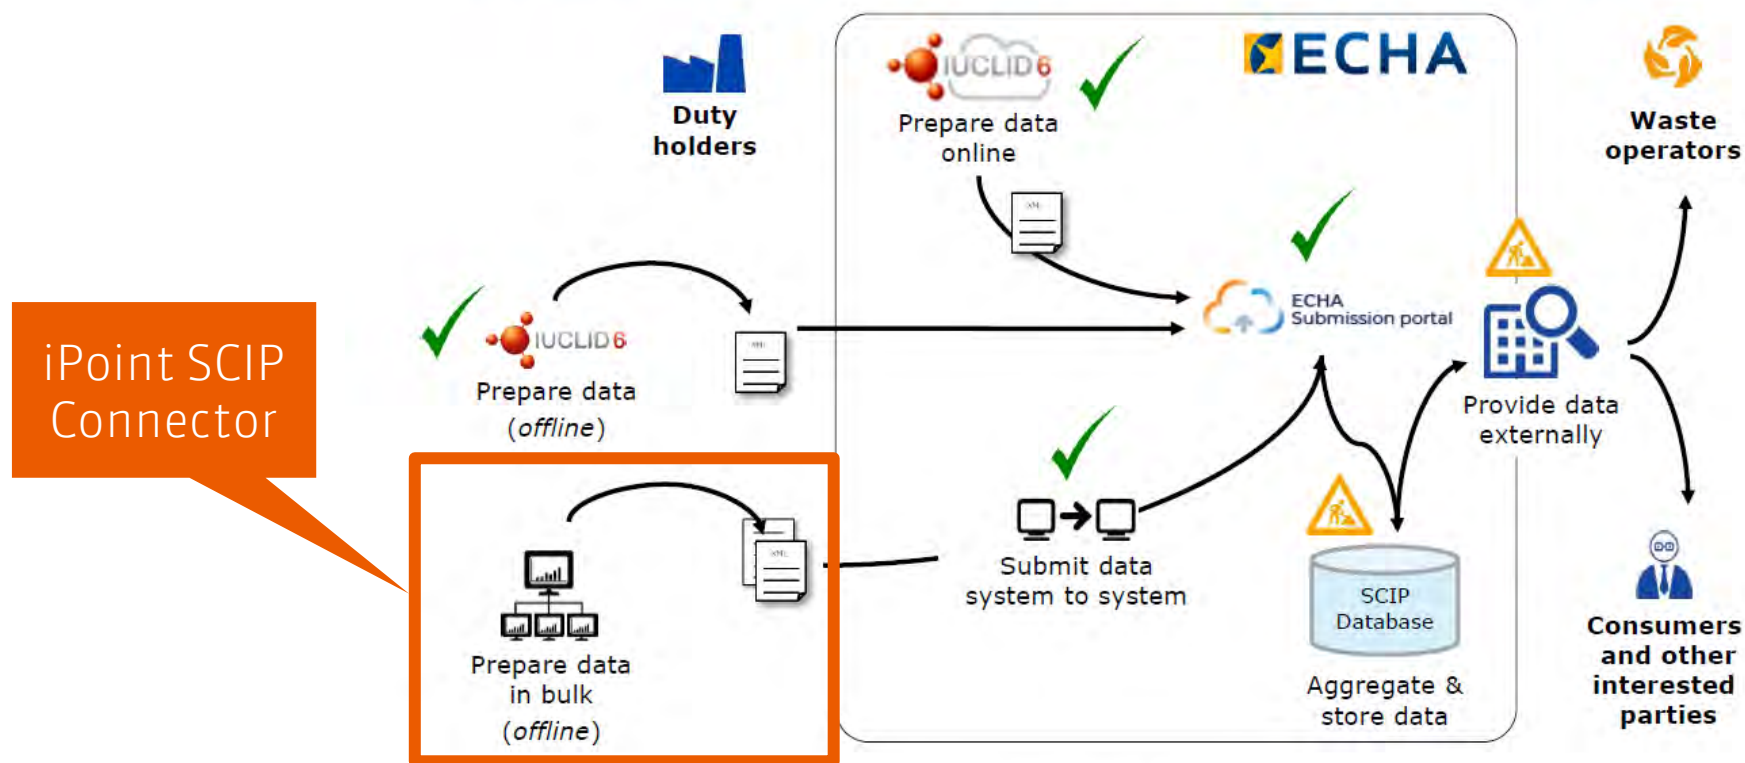

- Enable proper treatment of hazardous waste
- Push for substitution
- Strengthen circular economy
- Increase authorities' information base

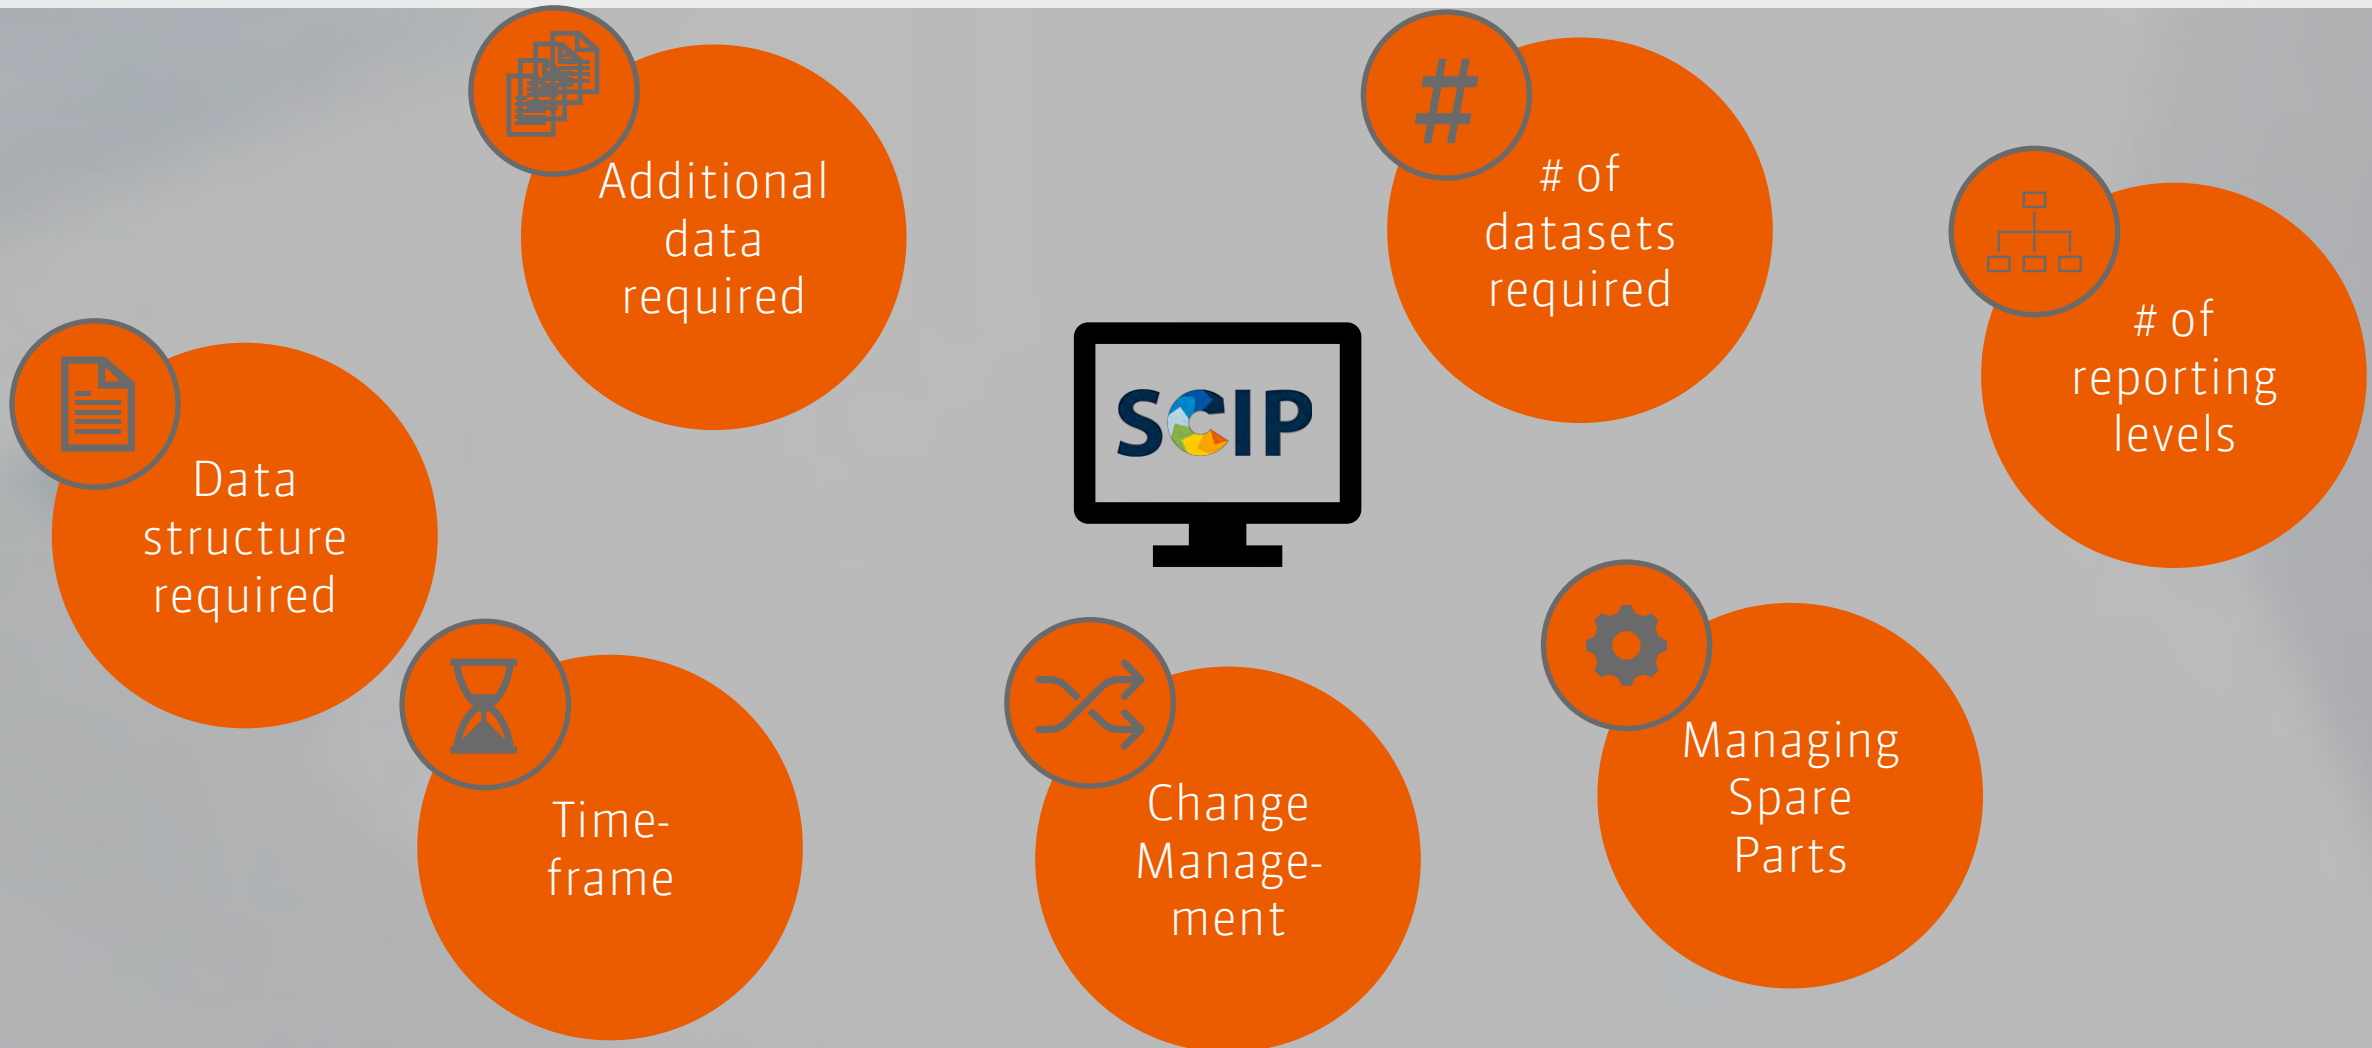

# State of play @ECHA

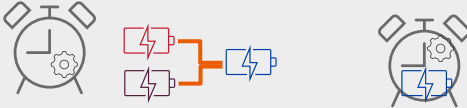

## Status of SCIP database landscape

# Industry challenges

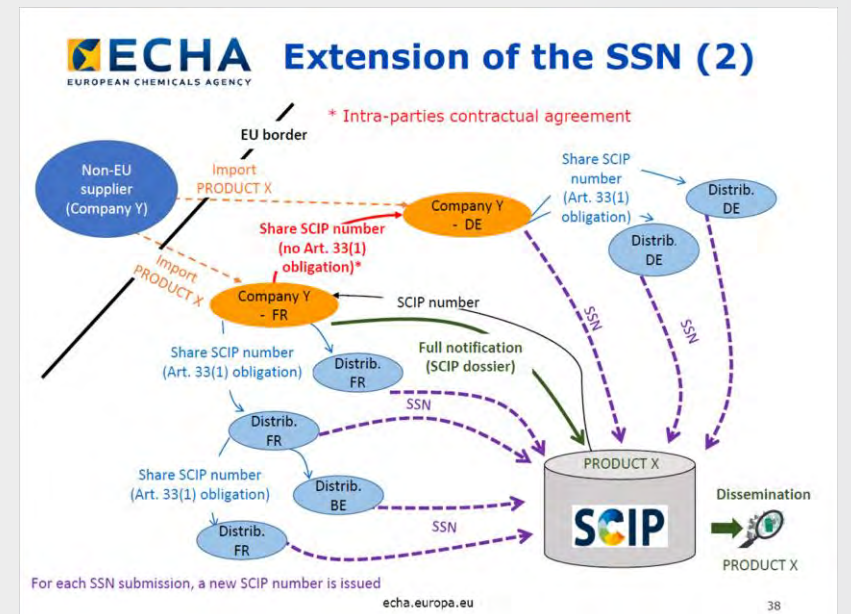

# Grouping

- **Identical articles as such** 
- **Quasi-identical articles as such**   
(same SVHC, same material, same TARIC, include individual identifiers)
- **Quasi-identical complex objects**   
(common numerical identifier, sharing quasi-identical articles as such)
- **Representative article approach**   
(temporary solution whilst refining tools and data?)

# Simplified notification

- Initial idea: referencing for distributors
- Further options:
  - Referencing by „sister“ companies
  - By companies with exclusivity rights
  - Conditions: intra-party agreements, they must be kept available for MS authorities
- Operating Mode: use SCIP dossier ID as „primary article identifier“

# Reporting hierarchy

- ECHA requires **information on article level**
- **Basis:** interpretation of conclusion of EU court of justice decision in case C-106/14
- Protection of **sensitive information**
  - No disclosure between notification and submitter (LE)
  - Identifiers of components will not be disclosed
- **Number of layers required** – work in progress @ECHA
- **Further recommendations** expected @CARACAL meeting 7/9

# SCIP database timeframe

Countdown to start of reporting obligation: 180 days or 125 working days!!

5 July 2020

Transposition into  
Member State legislation

9 July 2020

iPoint Webinar

August 2020

Release 1

September 2020

Release 2

10/2020

ECHA SCIP V 1.0

5 January 2021

Start of submission  
obligation for suppliers  
of articles

Q4/2020

Release 3

Q1 – Q2 2021

SCIP V 2.0

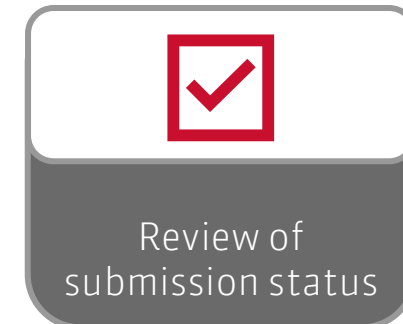

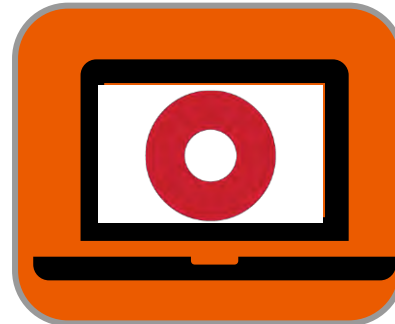

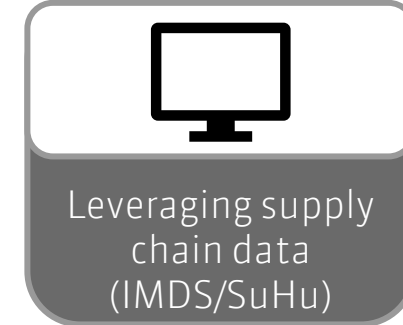

iPoint

# iPoint SCIP Solution

## Overview

# SCIP Database

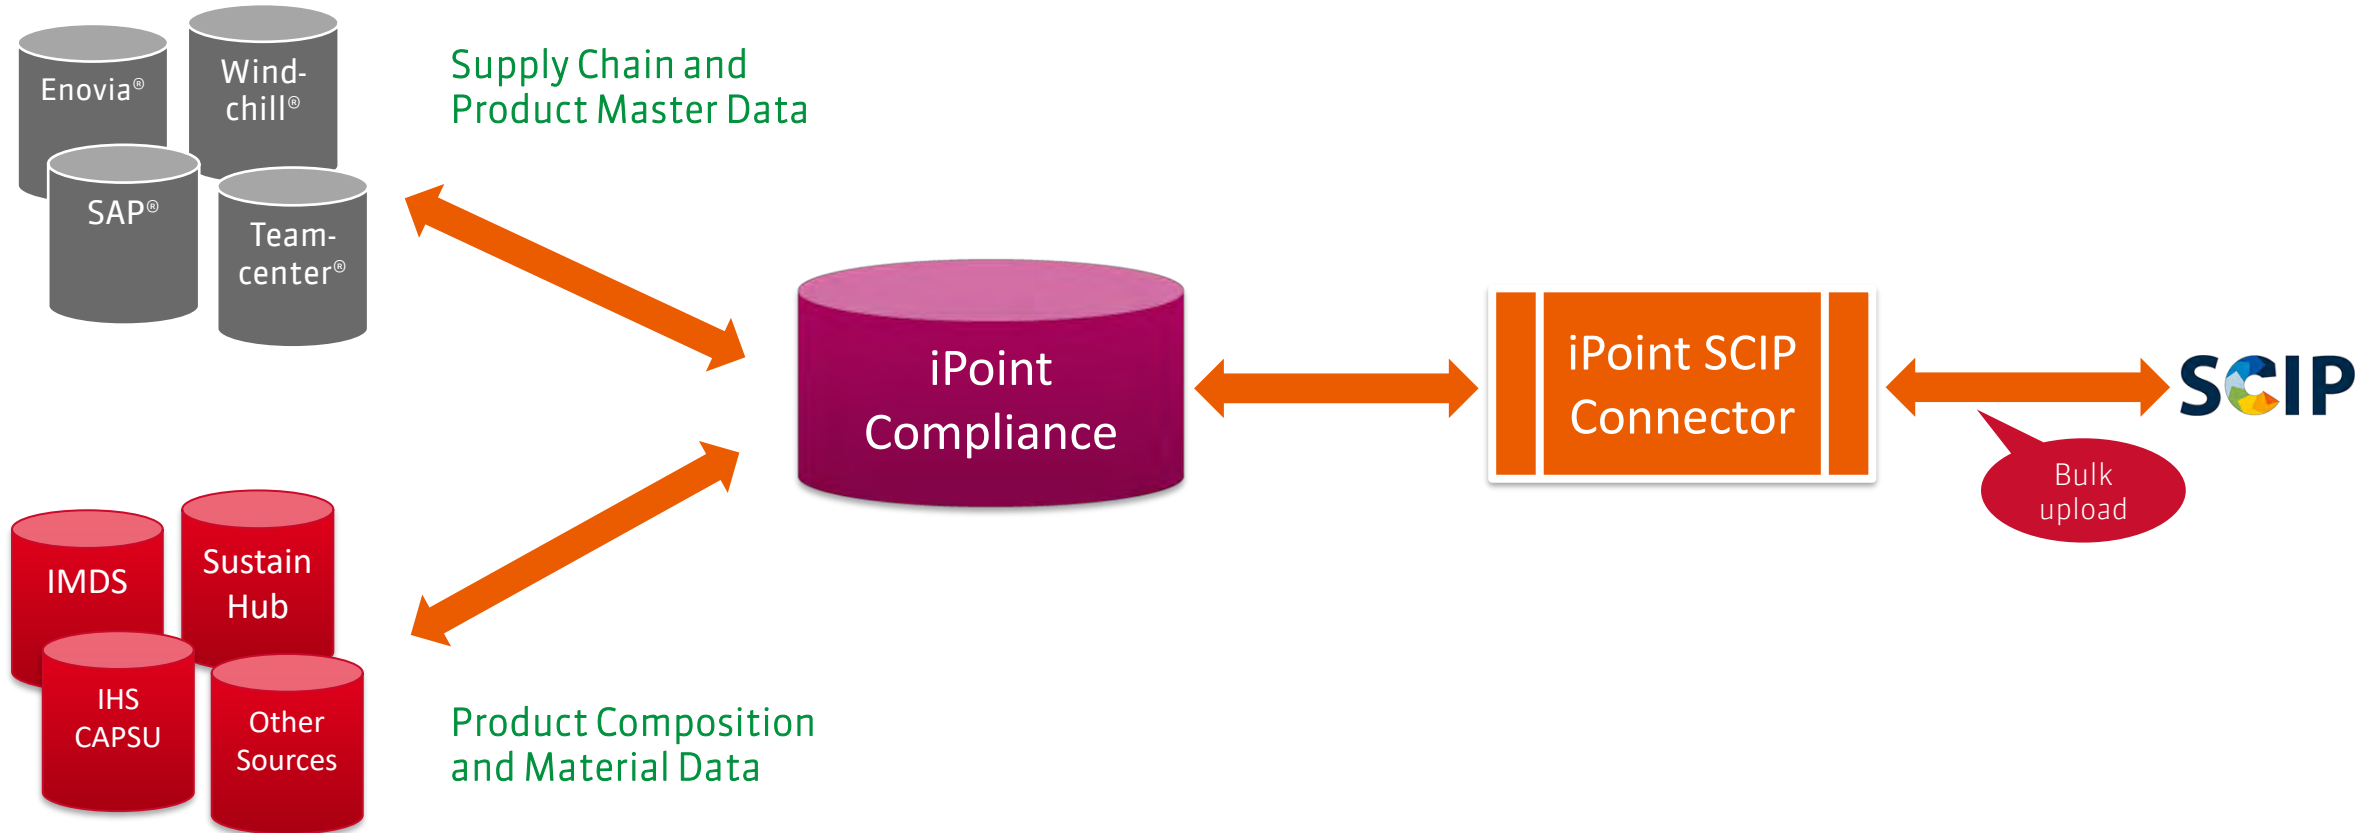

## iPoint Key Features

- Automated analysis and reporting, bulk upload
- Setting and management of **default values**
- **Overview** of completeness of data
- **Task management** and change management\*
- Concise **management of dossier information** (incl. history and versions)
- **Easy handling** of large amounts of data
- Collection of **all data in one place**
- Collection of **missing data**

# Rough workflow for SCIP dossier submission

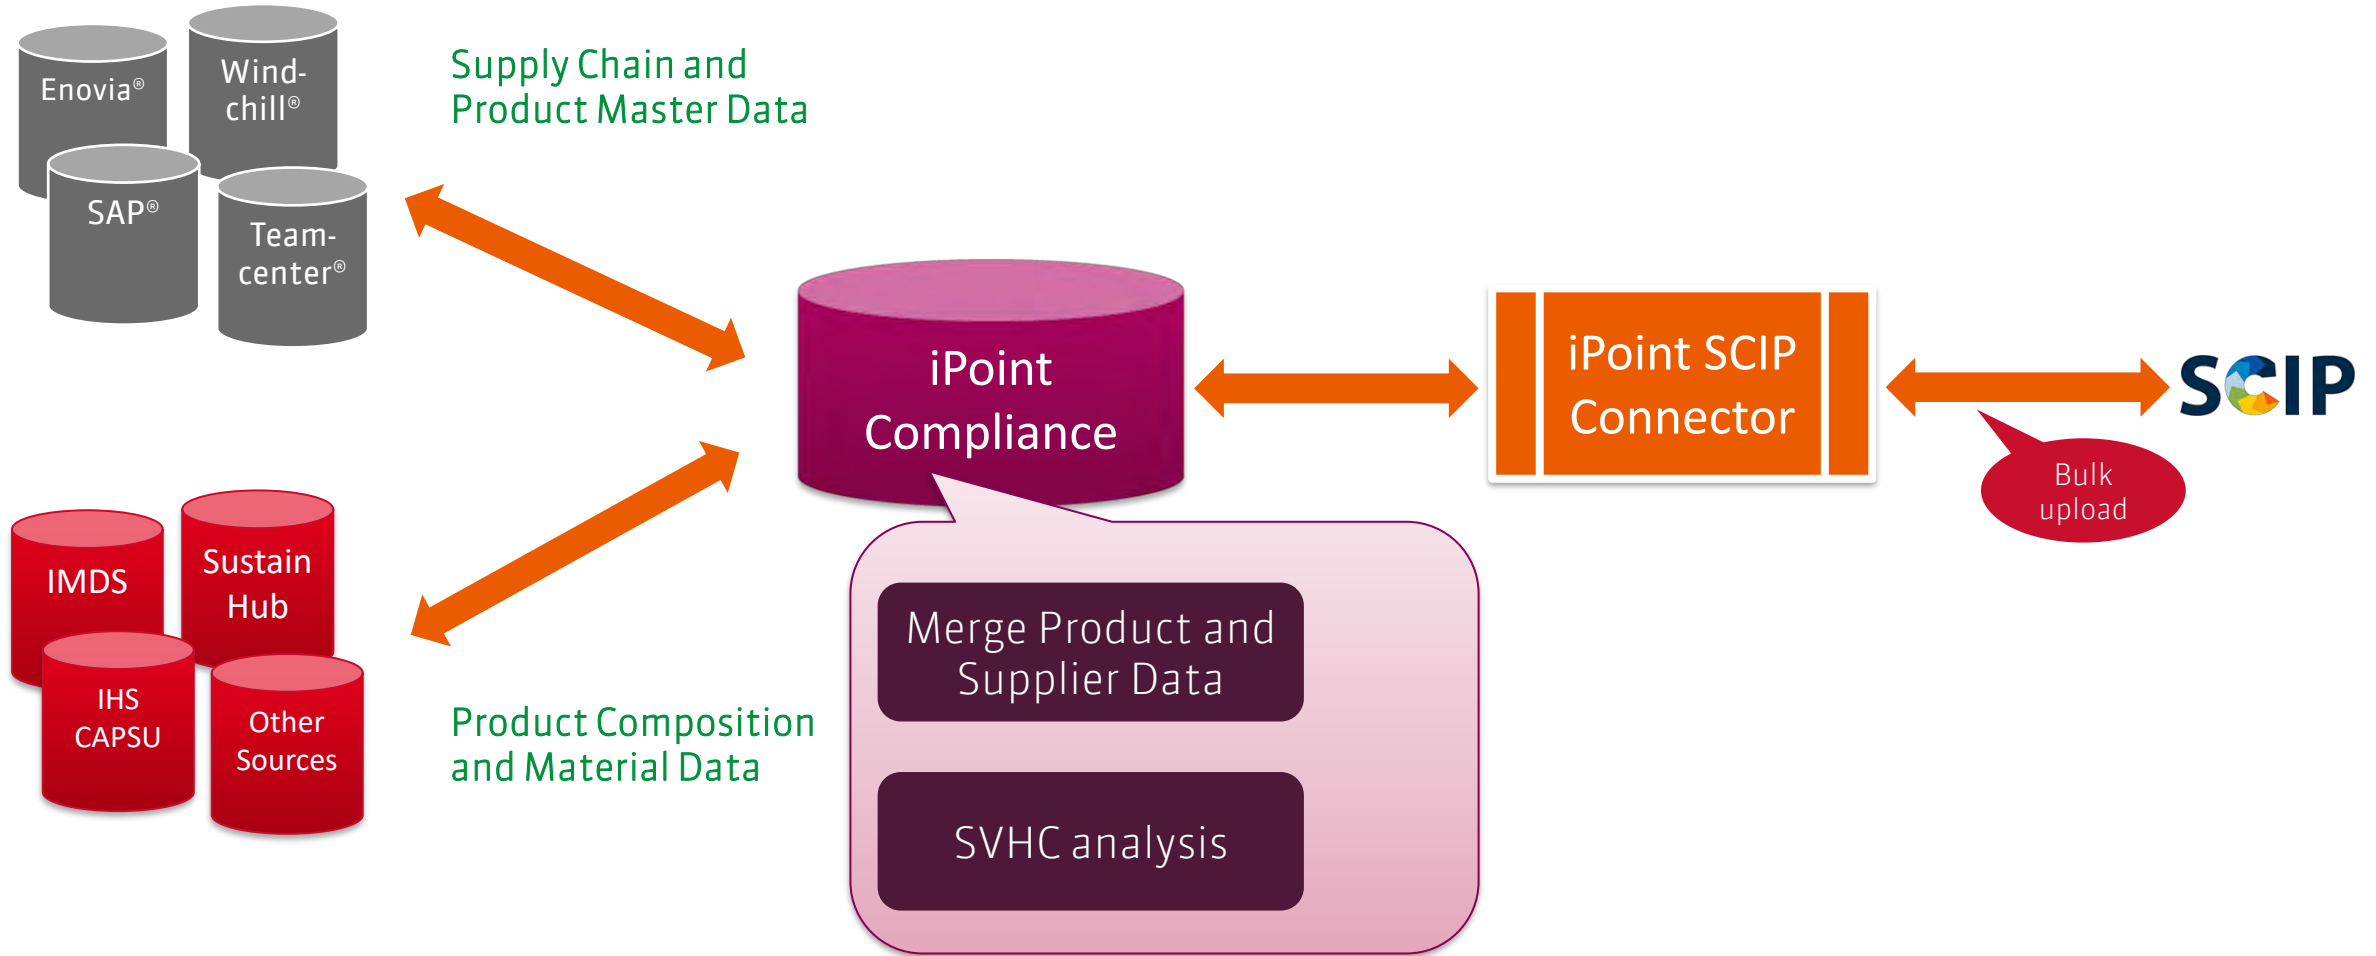

## Using iPoint's solution

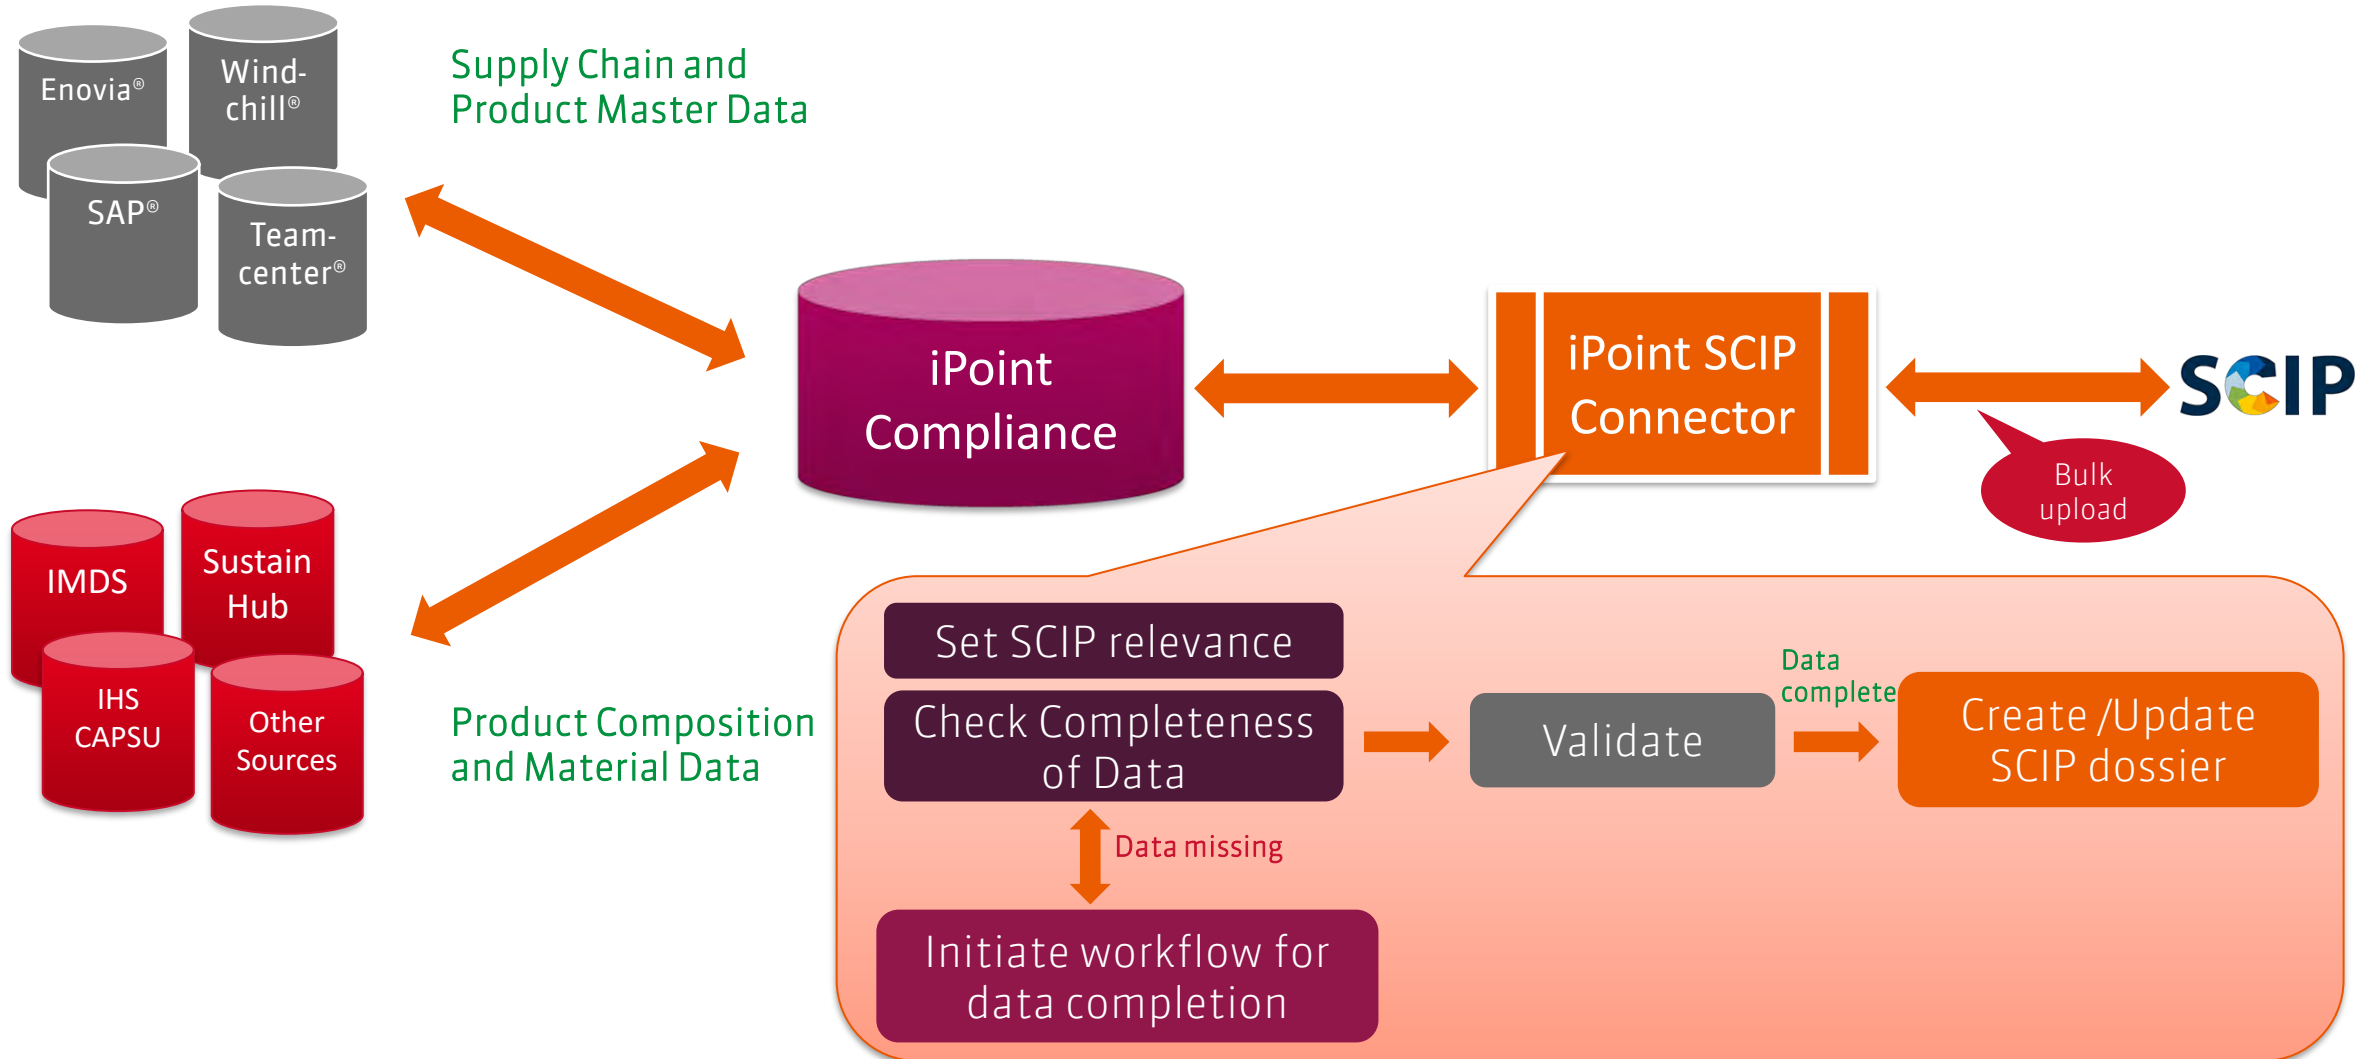

# Rough workflow for SCIP dossier submission

## Using iPoint's solution

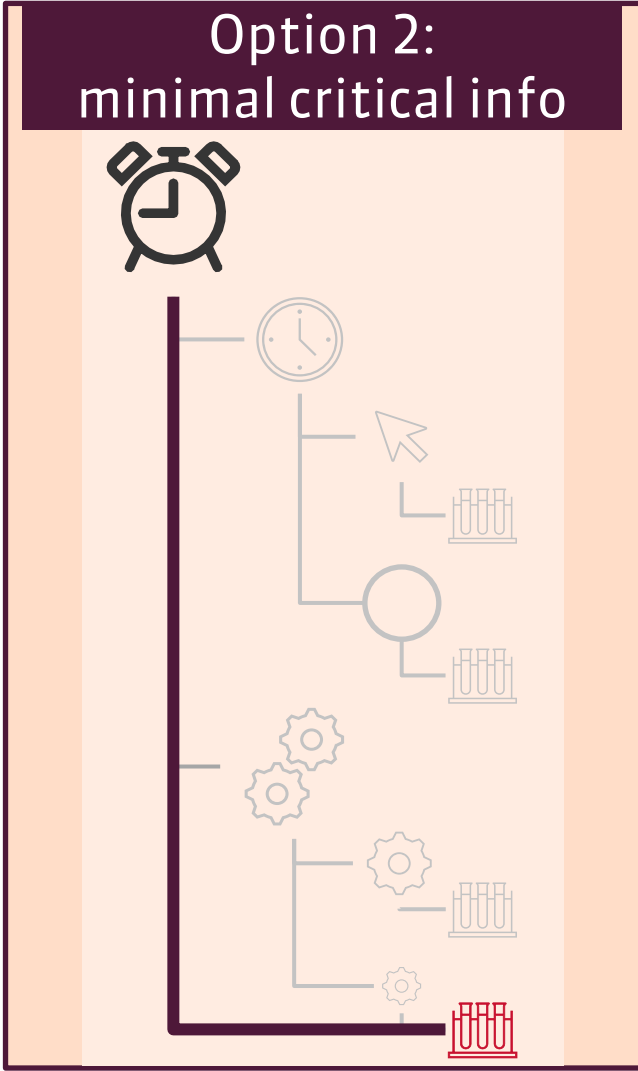

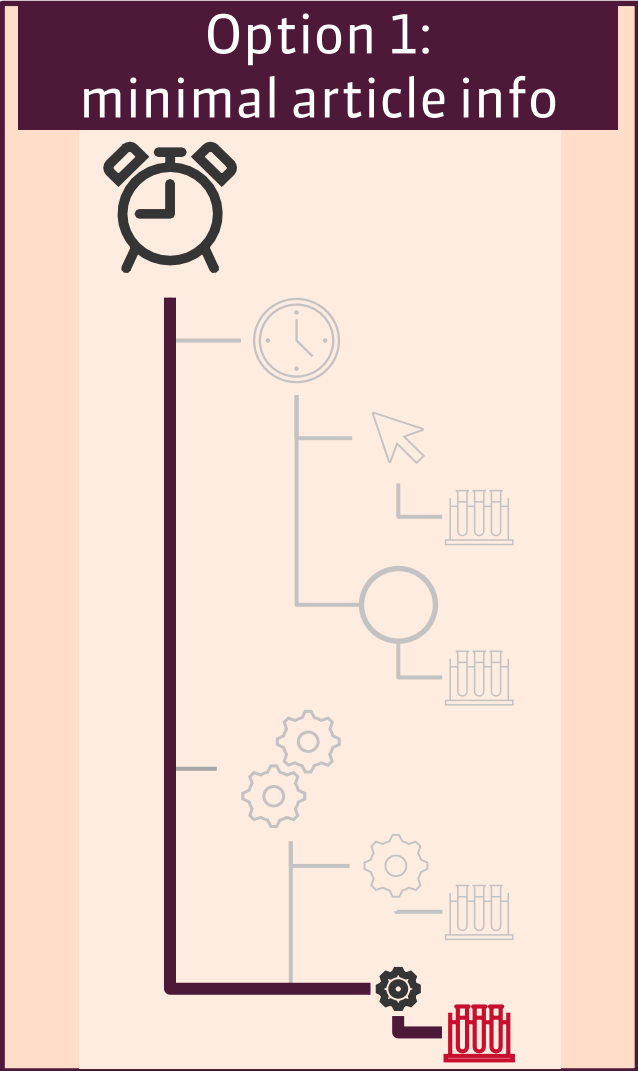

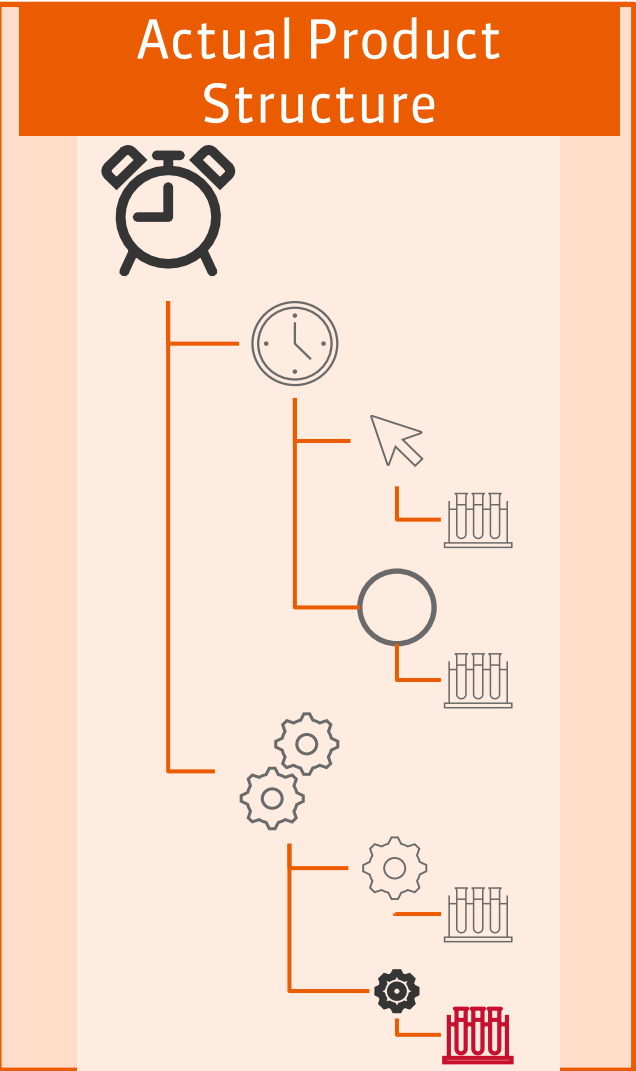

# Rough workflow for SCIP dossier submission

## Using iPoint's solution

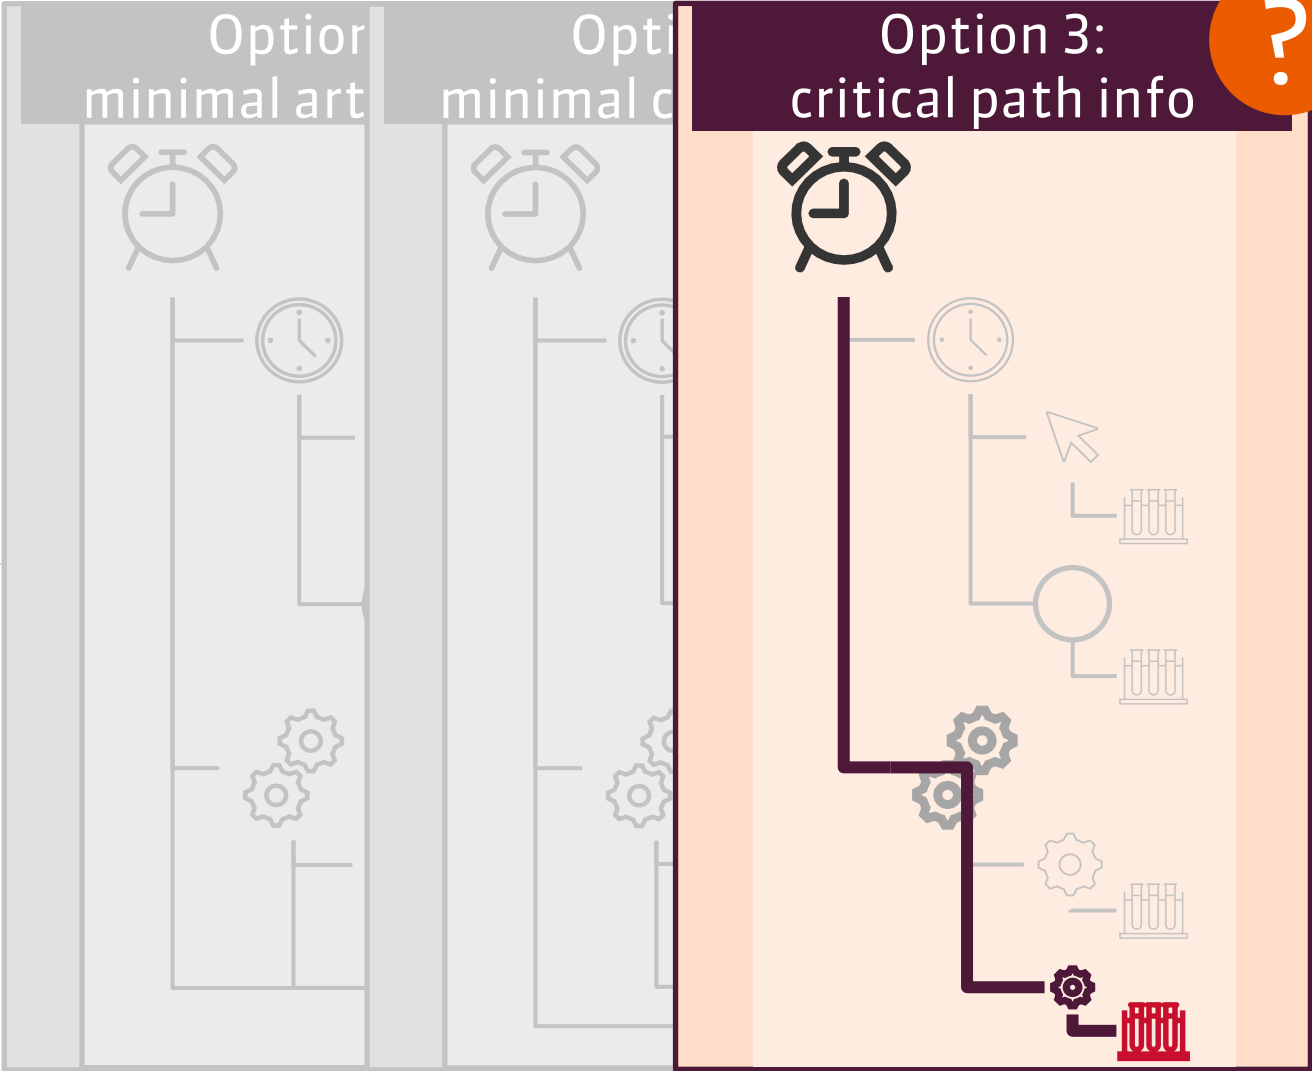

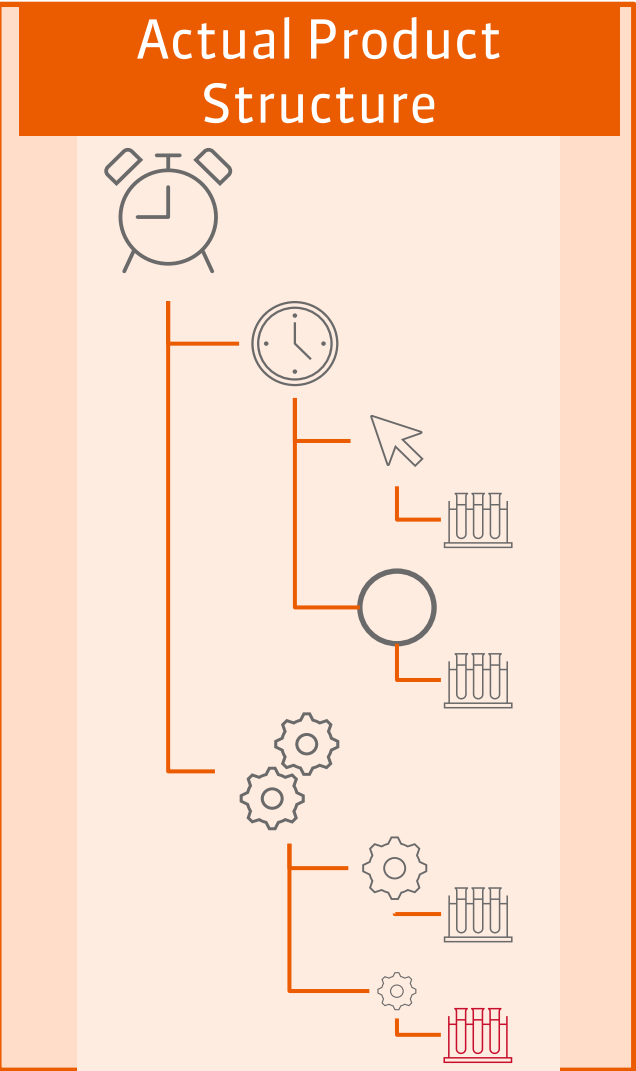

# Reporting hierarchy

# Reporting hierarchy

# A glimpse into the iPoint software

# Collecting SCIP properties from a supplier

- I want to collect data from the supplier for purchased parts
- I want my supplier to provide composition
- I want my supplier to provide documentation
- I want my supplier to provide SCIP properties
  - Article Category
  - Material Category
  - Safe Use Instructions
  - SCIP Submission Number (roadmap)

# Preparing and submitting dossiers

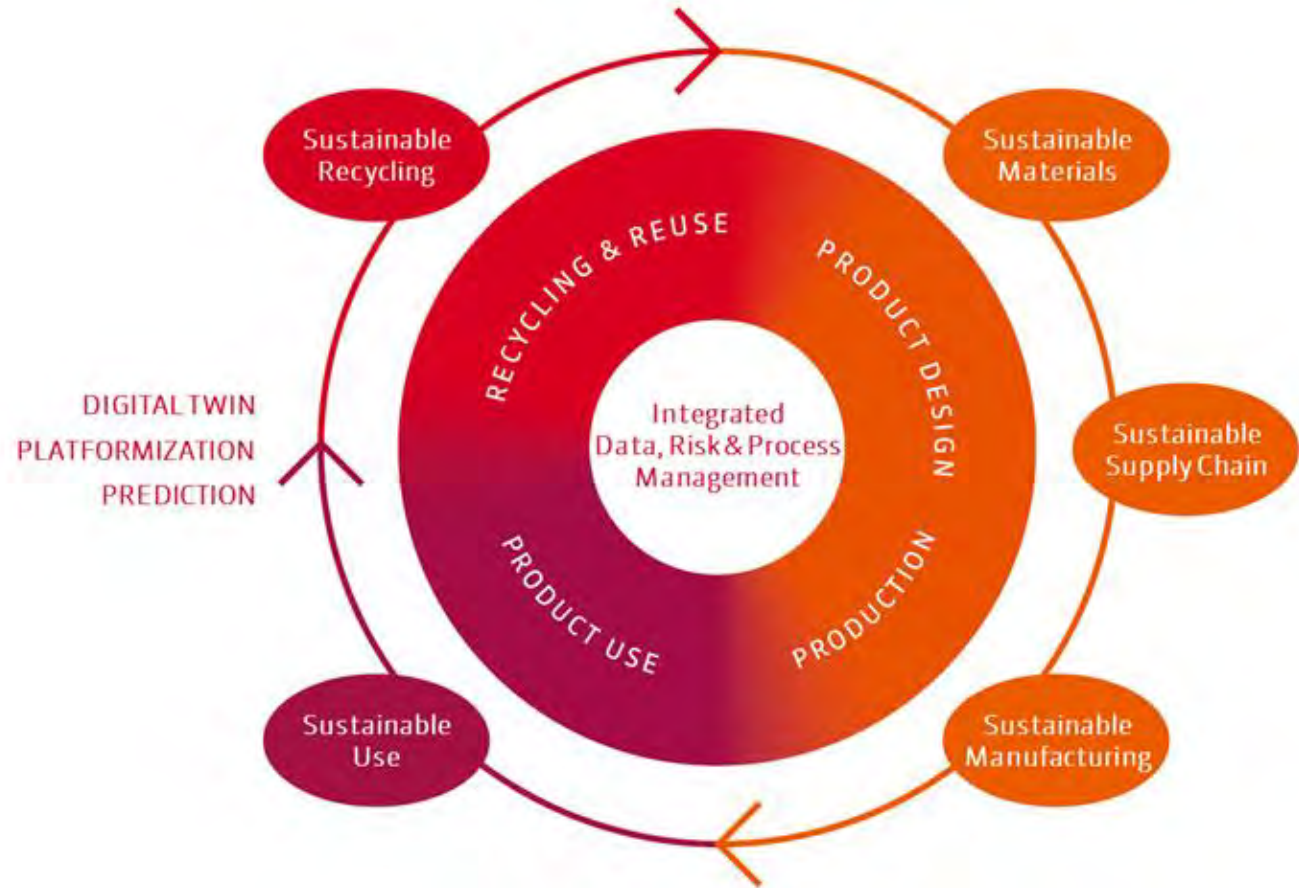

- I want to manage my ECHA UUID
- I want to setup default values for SCIP properties
- I want to search for SCIP relevant products
- I want to visualize product tree to locate the SVHC
- I want to review and upload one or more dossiers to SCIP Database

Corporate  
User/ OEM

# The iPoint advantage

A Holistic Life Cycle Management Approach

# Option 1 – Turn key solution

## How does it work?

- **Software**
  - iPoint team will use our software to manage the service
- **SME Support**
  - Engage with iPoint SME for best practice advise
- **Data Management Team**
  - Engage iPoint Services team support for complete turn-key solution
  - Supplier training
  - Data collection
  - SCIP dossier submissions
  - Program Management for Business Units

## Benefits

- **Reduces Time/Cost**
  - Eliminates manual processes
  - Makes Auditing Easier/Safer
- **Expert Advise**
  - Process and technical expertise
  - Best in class software
  - A positive impact on your company's compliance process
- **Provides Scalability**
  - Internal staff can focus on core responsibilities
  - Easily incorporate other BU/acquisitions
  - Provides a path for internal staff to take over the program later if desired

# Option 2 – Software solution

## How does it work?

- **Software**
  - Software and User licenses
  - Implementation Services
  - Integrations
  - Software training
- **Hosting Options**
  - IPoint cloud hosting
  - On-premise installation
- **SME Support**
  - Engage with iPoint SME for best practice advise

## Benefits

- **Collect and Connect**
  - Advanced Data Management Options
  - Data from supply chain and internal systems
- **Analysis of large volume of data**
  - Leverage compliance data for analysis
  - Easily Identify SVHC
- **Report to SCIP Database**
  - Automatically generate a i6z file and submit in bulk
- **Evolve and improve**
  - Achieve due diligence by iteratively improving with each SCIP re-submission
  - Branch out into other areas of compliance and sustainability
